I. DEPARTMENTAL

A. COMMISSIONER’S COMMENTS: Acting Commissioner Aho reported the following:

Brownfields Funding: Department staff has been doing a great job assisting communities with submission of grant applications in an effort to advance brownfield’s revitalization projects. A recent US Environmental Protection Agency grant award of \$2.95 million will support the following projects:

- Augusta Tissue
- Belfast (assessment work)
- Canton (public access launch and greenfields project with the removal of a leather tannery)
- Southern Maine on community wide projects.

Maine is the tenth largest recipient of grant funding awards in the nation. This endorses the exceptional work of DEP staff in these programs to obtain necessary financial assistance to help these communities with revitalization projects.

Wallagrass: The Department’s response team was deployed to a gasoline spill into bedrock along Route 11 in Wallagrass. The spill was caused when a tank truck rolled over and approximately 5,000 gallons of gasoline was released. DEP plans to hold a meeting in the community to provide answers to questions and fill informational needs of the public.

First Wind – Oakfield: The Department has received an application from First Wind for construction of Phase II of the Oakfield project. The second phase of this project will increase the megawatts from 50 to 150 and increase the number of wind turbines from 30 to 50 turbines. Additionally, 52 miles of tie line will be added south to connect to the New England Power Pool “NEPOOL” grid in the Chester area.

QUESTIONS:

Board member Lissa Widoff asked if the Oakfield project Phase I connected to the grid north of the turbine site.

Acting Commissioner Aho explained that Phase I ties north and the Phase II project will tie into the grid south.

B. COMMENTS FROM THE BEP CHAIR: Chair Lessard welcomed the Board and Acting Commissioner back and publically thanked the special committee on Regulatory Reform for their thoughtful and responsible work related to LD1. The Chair also expressed gratitude for the efforts made by the Governor’s Office and the Joint Standing Committee on Environment and Natural Resources related to LD 1575 which allows for more diverse representation on the Board.

C. EXECUTIVE ANALYST COMMENTS: None

D. BOARD CALENDAR: Reviewed and noted that the next meeting will begin at 8:30 with a public hearing on the citizen initiated rulemaking concerning Chapter 375, Section 10 Noise to address noise from wind power developments.
